

January 5, 2021

Dear Summit County Planning Commission,

As a nonprofit organization that employs around twenty employees and enrolls at full capacity over 100 families who live or work in Summit County in our childcare centers, we would like to voice our support for affordable housing in Summit County.

With the costs of housing being as high as they are in Summit County, many of our staff commute from Salt Lake County and Wasatch County to work at PC Tots. Some of our enrolled families also commute into Park City for work. We have several staff and families who earn 30% of Area Median Income who would greatly benefit from additional affordable housing in Summit County so they could live in our community rather than commuting every day.

Thank you for your consideration,  
Katie Madsen
